

Our Stars: Our Journeys, Our Stories

Alisha Hadirah Pri 6/3 (12 years old, 2020)

The true essence of learning takes place when one is able to transfer and apply learning beyond the walls of the classroom. A keen learner, Alisha has shown at the age of 12, the capability and competence in applying her learning and skills attained in school back at home. Besides helping out with household chores, Alisha also guides her two younger siblings in developing their daily living skills.

The functional curriculum and programmes in school have provided Alisha with the platform to pick up daily living skills and to meaningfully apply them at home. Being a good role model for her two younger siblings and exemplifying school values as one of the Assistant Head Prefects, Alisha has shown that with commitment and resilience, students from SPED schools can play an important role in the community and society.
