

Our Stars: Our Journeys, Our Stories

Muhammad Hafazha Sec 2/4 (14 years old, 2020)

The school's curriculum and student leadership development opportunities contributed significantly to Hafazha's development. In spite of his initial struggles in transiting from the mainstream school to APSN Katong School, Hafazha leveraged on all learning opportunities to uplift himself. He made remarkable progress, especially in the area of Vocational Education (Voc Ed). The diverse exposure from the Voc Ed curriculum has sparked Hafazha's keen interest not only in learning new skills, but also in guiding his peers who needed more support. Character and Citizen Education in the curriculum has also inculcated a good sense of responsibility and directed him to always extend a helping hand to others.

As an Assistant Head Prefect, Hafazha is held in high regard by his peers and he leads the school daily in reciting the national pledge. Hafazha is looking forward to new learning as he gears towards post-secondary education and work-related opportunities.
