

TS Artistry 2022

Talents United showcases the artistic gifts and talents of students from APSN Tanglin School. It is also a platform to collaborate with the community to work on the expressive processes of inclusive arts.

To inculcate the value of appreciating diversity and offering exposure for our students to develop and enhance their potential in the arts, TS Artistry enables students to grow in self efficacy as they unleash the positive and authentic perspective of their capabilities through an array of inclusive art activities and creating a culture of inclusiveness and promoting greater equality for persons with diverse abilities.
