

Student Leadership Training – Dragon Boat

11 April 2025

Leadership Training: Boat Dragon Challenge 2025

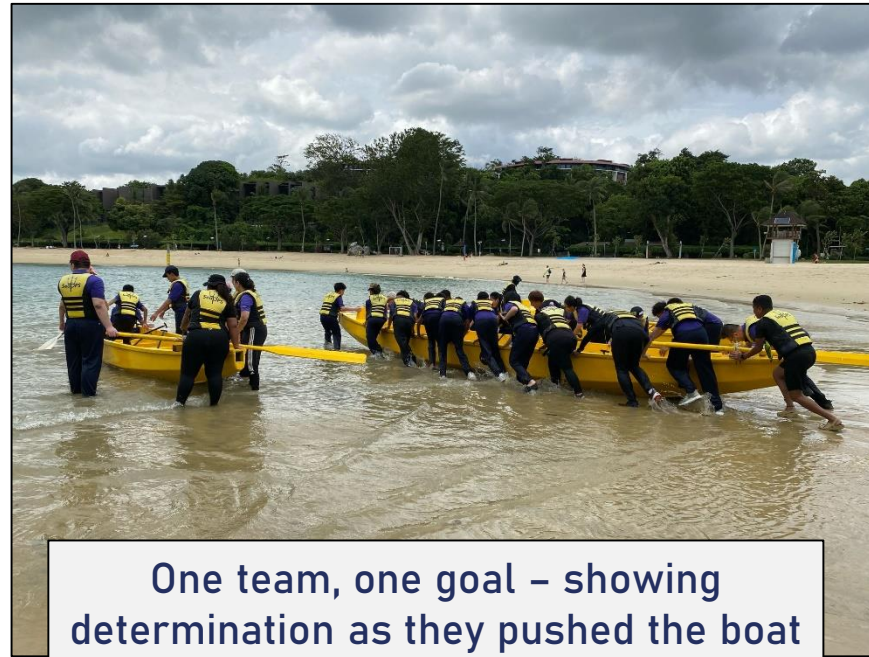

Our prefects from across all levels gathered in high spirits, ready to take on the Dragon Boat Challenge 2025!

The prefects of APSN Katong School embarked on a unique and thrilling leadership session on 11 April 2025! Dragon boating at sea was a new experience for most of the students. Conducted by Camp Challenge, our prefects learned how to thrive under pressure, communicate effectively and apply positive interactional and social skills.

Leadership Training: Boat Dragon Challenge 2025

Teamwork in action! Prefects learning paddling techniques and safety procedures before launching into the open water.

One team, one goal – showing determination as they pushed the boat together into the sea.

Unity and strength! Our prefects synchronised their efforts to get the boat afloat.

This meaningful and fulfilling experiential process nurtured the emerging leadership potential in our junior prefects. Meanwhile, our senior prefects took the opportunity to hone their mentorship skills and further develop their self-confidence.
