

International Friendship Day

7 April 2025

International Friendship Day at APSN Katong School

Students actively participating in an engaging quiz.

Students celebrated International Friendship Day through a week of meaningful activities starting 7 April. Aligned with this year's theme, "Forging Friendships in a Complex World," the celebration promoted cultural understanding, empathy and connection across borders.

Our student, Wonjin, takes the stage to share about South Korea

Mr Jonathan, our Occupational Therapist, shares about Filipino culture

At the Primary level, students explored cultural diversity by colouring traditional costumes and learning simple greetings in different languages. At the Secondary level, they engaged in a sharing session by their schoolmate Wonjinn, who spoke about South Korea, and Occupational Therapist Mr Jonathon, who shared about the Philippines.

Collaboration in action—Primary students learning about different cultures through art.

Across both levels, students learned that building friendships in a complex world begins with openness, empathy and respect. They also recognised that kindness is key to forging friendships across cultures and deepened their appreciation of Singapore’s place in a culturally diverse world, particularly among ASEAN countries.
