

The students' first experience taking a bumboat to Pulau Ubin

The students participated in the SG60 festivities

On 26 April 2025, five students from the Street Dance CCA performed a lively hip hop routine at the East Coast Ubin Day 2025.

It was also the students' first visit to the island, making the experience extra special. Before the performance, the students explored parts of Pulau Ubin, learning more about the rich heritage of the island.

The students visited the Chinese Kampong Heritage House Exhibit, where they explored the items used in the past and today.

The students then showed their commitment and passion in their final practice before taking to the stage.

Once in their element, our students dazzled the crowd with their vibrant energy, showcasing the co-ordination and flair in their dance performance.
